

TRIBUTE TO TEACHER

Upon me, oh dear teacher,
you have played such a role,
You have helped me in every
respect to achieve my goal..

You have given a
correct definition
to the word
"teacher"

By teaching me
you have made
me feel intel-
lectually richer.

When I come to my second
home in the broad daylight,
You always helped me to dis-
tinguish between wrong and
right.

You have always motivated
me to work,
And you have always taught
me never to be dependent
upon luck.

In my sight you are always
the best,
Just give me your blessings,
and I'll never let it go waste.

OUR TEACHERS

We have incredible teachers,
Whom I wish to feature,
In this poem,
As my role model.
They teach us maths, sci-
ence, social science, English,
But none can sing like Taylor
Swift!
Some teachers are funny, re-
ally
And this makes us love you
all so dearly.
Classes wait eagerly for all
periods,
This makes us more and
more eager,
Compositions, readers and
workbooks,
Nothing can match their
looks.
Thank you for teaching us so,
That influences us and makes
us grow.

A SPECIAL TEACHER

Teachers come and go
But every so often one
comes along
That you'll always remember
One who makes learning an
adventure
And who can still remember
What it's like to be young
And growing up
The kind who can make you
Want to be the very best you

I admire you, I respect you,
I pray for you, these are
mottos,
Which are costlier than a jew-
el
That feels my body's every
cell.
I shall not give it up forever,
I will not forget you, never.

FAVOURITE TEACHER

As you all know
We have a favourite teacher
She might be the first
teacher who helped you!
I'm also having a special
teacher who helped me a lot.
Her name is Mrs Jyoti Shinde.
She cares for me a lot. She
used to live with me in school
as a best friend.
Her good habits are that she
always talks politely with
everyone,
She always behaves with
every child equally.
She never beats anyone.
She always explains poems
with expressions.
I can never stop to say some-
thing good about her.
No one can be like her.
She is the best teacher in the
world!

MY FAVOURITE TEACHER

My teacher enters with a
smile
But to settle us down
It will take a while
Finally when we settle down
He will always frown
"Have you done your work?"
he says
Replies the class, "Yes"
"Then lets begin with...
Multiplication of knowledge
Addition of concentration
Division of elimination
Subtraction of distraction."
I say, "Oh, I did not do my re-
vision"
Says Sir in an accent, "Why?
Oh, why? What is the situa-
tion?"
"Sir" I say, "I can't tackle the
complication"
Says Sir "That's alright, I'll
give you no test"
Phew.. Now for a little rest
But I know that Sir knows
that I'm lying
If Sir wasn't lighthearted
I'd be dying
I like my Sir
Because he's really kind
And because he has a
'Mathematical' mind!!
