

My kitten attempts to think out of the box!

— Kiran Islania

### Me Mobile Phone Photo Contest:

Send us an **unusual picture of your pet** that you have shot with your mobile phone and **15 words about it**. Send your entries to [me@dnaindia.net](mailto:me@dnaindia.net). Subject: My Magic Moment. The best will be published.

### LOOK WHO ME FOUND

**A budding storyteller! Keshav Rai is nine years old, and he took just 15 minutes to pen this down**

#### **IF MY SCHOOL WAS SHIFTED TO THE MOON...**

My school is on the moon. They just shifted a week ago. The new Principal is a computer from space. Everybody wears space suits with oxygen tanks. The school is called 'CHAKUKA MOON SPACE BASE'. The teachers are antelope-tailed aliens. There are three divisions called Slimy, Stinky and Spooky. The classrooms are constantly moving space buggies with four seats and flap-open desks that bump up and down the craters. The lunch room rotates and the tables fly in the air. The serving staff are robots which shoot out dishes like fast food. We have only two subjects called Moon Sports and Moon Fiction. The assembly hall is covered in 1,800-year-old slime. My moon school is fun as I study only once in a month. My bus is a UFO and it takes 15 days to go and 15 days to come. That's what I dreamt about.

**Keshav Rai wins Fantasie Fine Chocolates worth Rs 500!**
